

The Dalles Chamber of Commerce and YouthThink Present...

Workplace Behavior Problems: The Challenge of Substance Abusers

Jerry Gjesvold,
Manager of Employer Services:
Serenity Lane Health Services

Businesses tend to hire employees hoping everything will go well and seek advice only after something goes wrong. While it is impossible to eliminate the risks of substance-abusing employees, this session will help businesses reduce or contain those risks and avoid litigation.

Learn the simple straightforward steps you can take to manage difficult on-the-job situations and prevent a crisis. You'll learn:

- Employer responsibilities and legal liabilities
- The risks of ignoring employee substance abuse
- How to observe and document unusual behavior
- Constructive intervention techniques
- How to take action to reduce risk

Join The Dalles Chamber and YouthThink as they welcome Jerry Gjesvold
